TASK FORCE INNOVATIONS LLC
720054 Bishkek
Kyrgyzstan

TO: Whom It May Concern

Subject: Letter of Recommendation – TASK FORCE INNOVATIONS LLC

As the Coordinator Representative for the Export Control and Related Border Security (EXBS) program in the Republic of Kyrgyzstan in 2012 and 2013, I have had the opportunity to work closely with TASK FORCE INNOVATIONS LLC as the prime contractor for the EXBS Border Crossing Facilities.

Task Force Innovation's performance on the contract was commendable both from a construction and a scheduling point of view. The practical exercise training area (PETA) on the territory of the State Custom Service Professional Development Canine Center located in Leninskoe village, Chui Region, Kyrgyz Republic were built in a single year. The team of experts at TASK FORCE INNOVATIONS LLC conducted themselves professionally at all times and were able to meet our demanding requests without any hesitation. Moreover, TASK FORCE INNOVATIONS LLC team has overcome all obstacles they faced and complete all work on schedule.

I am glad to recommend TASK FORCE INNOVATIONS LLC to other organizations in need of construction and services support in Central Asia, and feel they have the right blend of construction prowess, administrative professionalism, local political capital, and sensitivity toward confidentiality and security issues to make any project successful. The works ethic of TASK FORCE INNOVATIONS LLC construction crew were diligent, precise, and high quality of workmanship.

The successful completion of this project is solely due to the hard work and dedication of the TASK FORCE INNOVATIONS LLC staff. TASK FORCE INNOVATIONS LLC has far surpassed the expectations and requests of Export Control and Related Border Security (EXBS) program.

If you have any questions please do not hesitate to contact me by email at E-mail address:

Sincerely,
Siuda, Matthew J
